## IN.gov Features

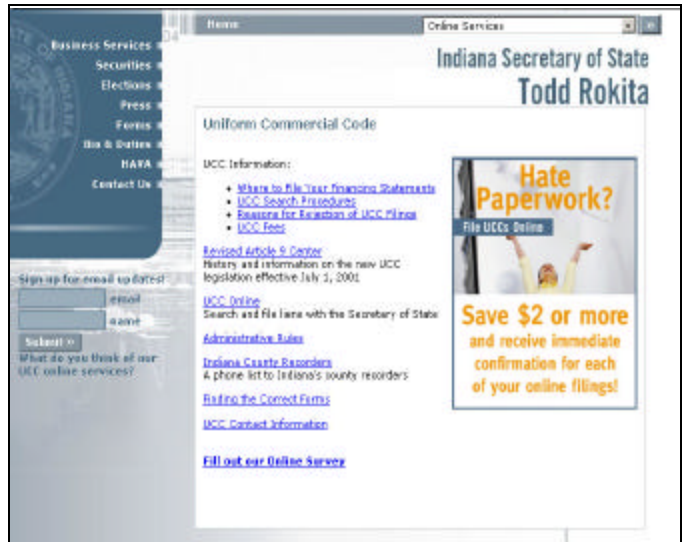

### Sixth Annual *What's So Great About Indiana?* Screen Saver Contest | [www.contest.IN.gov](http://www.contest.IN.gov)

In March, portal staff and agency representatives chose 20 finalists for the *What's So Great About Indiana?* screen saver contest. The artwork was then posted to [www.contest.IN.gov](http://www.contest.IN.gov) for a round of public voting. The public chose the following as winners of this year's contest: Ben Dowen, Cortney Greene, Heather Nale, Brittney Walker, and Alexis Warren. All five winners are students at Bradie Shrum Upper Elementary School in Salem, Indiana.

The group had lunch on the canal at the Stardust Terrace Café at the Indiana Historical Society, received formal recognition from Lt. Governor Becky Skillman, and enjoyed a special tour of the Indiana Statehouse.

### SOS Online Services Marketing [www.SOS.IN.gov](http://www.SOS.IN.gov)

During March and April, portal staff and the Secretary of State's staff worked together to heavily promote SOS online services:

- Banner ads promoting Business Entity and Uniform Commercial Code Filings and Trademark Searches were placed on relevant SOS and *accessIndiana* Web pages.
- Colorful stickers promoting online services were developed for SOS staff to affix to outgoing office mail for paper transactions.
- Portal staff and the SOS have worked together to develop Business Entity Report Filings reminder postcards, which are mailed to businesses to drive online filings. In addition to saving time and increasing convenience for both the SOS and businesses, online filings are a less expensive option than mail or walk-in. The postcard campaign has been a great success:
  - In March 2005, **74%** of all Business Entity Reports were filed online.
  - By April, year-to-date online filings had **increased by 390%**.

### accessIndiana Branding Strategy

The portal's branding and marketing strategy can be summed up in one statement: "If it's not **IN.gov**, it's not official". To assist agencies in transitioning to the IN.gov brand, a URL branding request form ([www.IN.gov/webaddress](http://www.IN.gov/webaddress)) is available to all state agencies, boards and commissions as well as all local jurisdictions of governments. All requests are electronically reviewed by a team comprised of State eGovernment champions. This team not only approves requests based on uniformity to the suggested standards, but also ensures that "umbrella" URLs are viewed from an enterprise perspective. An umbrella URL is used to brand a "mini-portal" that pulls together related information from a variety of sources. For example, [www.HR.IN.gov](http://www.HR.IN.gov) was created to help human resources professionals find relevant employment-related services from a single location.

### Business Model & Partnership

- The *accessIndiana* portal was introduced in December 1995.
- Indiana Interactive, a subsidiary of NIC, was chosen as the private partner to manage *accessIndiana* in 1995. NIC maintains long-term outsourcing contracts with 16 states.
- A public-private partnership model is used to manage the portal, with primary funding for the portal coming from the assessment of modest convenience fees (called "Enhanced Access Fees") to end users (primarily businesses) for a select set of services. Traditional means of access are still available to those who prefer not to pay the Enhanced Access Fees.
- Indiana Interactive employs 29 full-time staff, with 2004 operating expenses of about \$2.8 million, of which none were appropriated through the General Assembly.
- All state departments, agencies, boards and commissions have a Web presence on the portal, gaining efficiencies and economies by providing information online.
- More than **44 percent** of accesses to the portal occur while government offices are closed.
- The Next-Generation Portal "common look and feel" initiative allows for each agency Web site to have a common navigational structure and design. This gives visitors a familiarity among state Web sites that is user-focused, not organizationally focused and compliant with state and federal accessibility standards.
